

Welcome the "Romain-Rolland-Gymnasium" in Berlin! ☺

The „Romain-Rolland-Gymnasium“ has more than 1000 students and is one of the biggest schools in Berlin Reinickendorf!

The main focus of our school is the support in learning French as the first or second foreign language.

There are different areas that the classes focus on: the Science-oriented, the English-oriented, the French-oriented and the two bilingual classes.

Because our class is the science-oriented one, we are able to participate in this exchange-project!

Janina Schwiemann

### A showcase with Science

Students, ranging from grade 5 to 12, are part of our school society.

### The sports field

There are many extracurricular activities at our school that we can take part in. You can join the orchestra, sport teams, choir, the big band, and the drama club.

### Our cafeteria

We have a great school climate and our teachers pass on important values, such as peacefulness, tolerance and consideration

Our cafeteria is lead by students that organize everything and sell the food during the breaks.
