

HP Reveal Augmented Reality Vocabulary

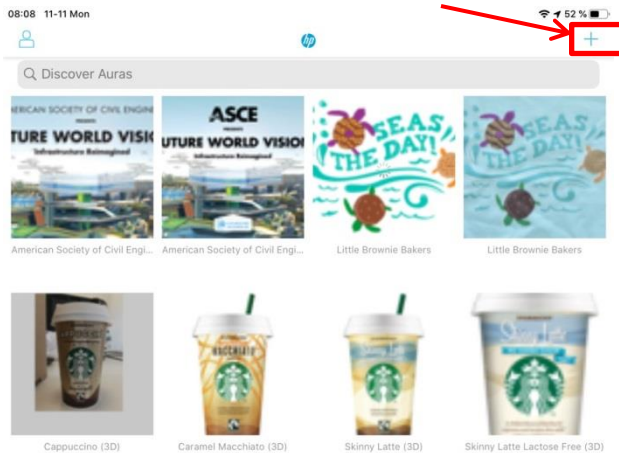

Aura – Augmented reality object.

Trigger image – image to detect your Auras.

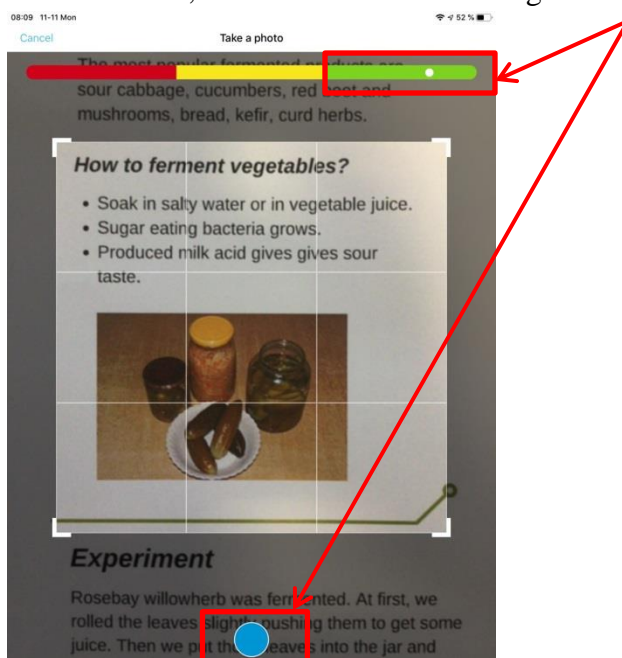

Overlay – the video that will play when your device detects the Trigger Image.

Creating Augmented Reality Using HP Reveal

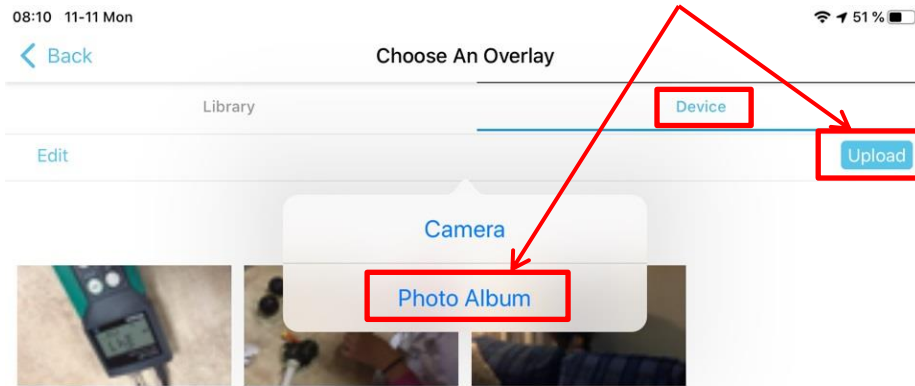

1. Open HP Reveal App by clicking  icon.
2. Press the “+” to create your Aura.

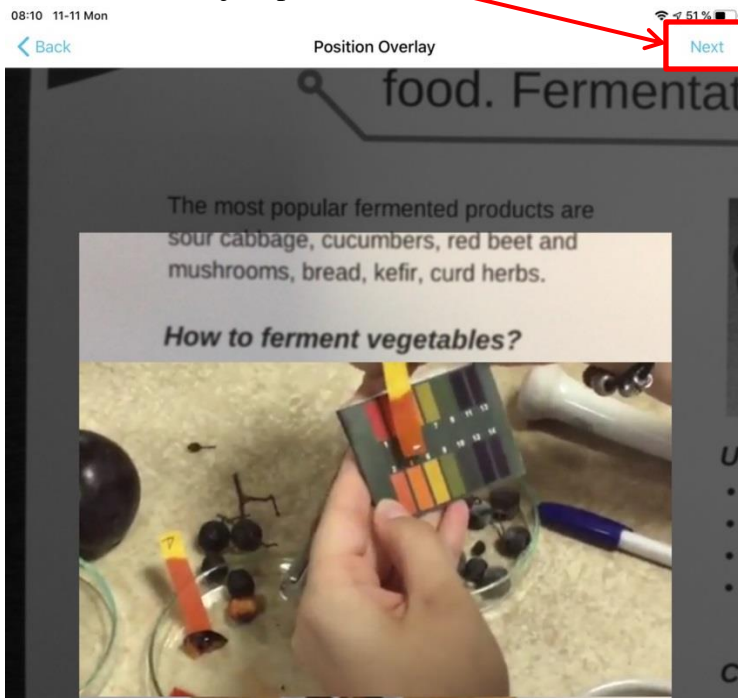

3. To create Trigger Image, hold your device over the picture you are using for it and press the blue circle, when white dot is on the green line.

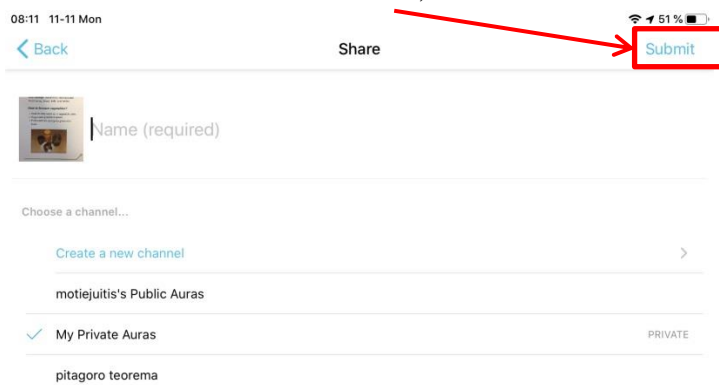

- Next you can choose an Overlay by selecting it from your device. Click **“Upload”** to select Photo Album from your device or take it from Camera.

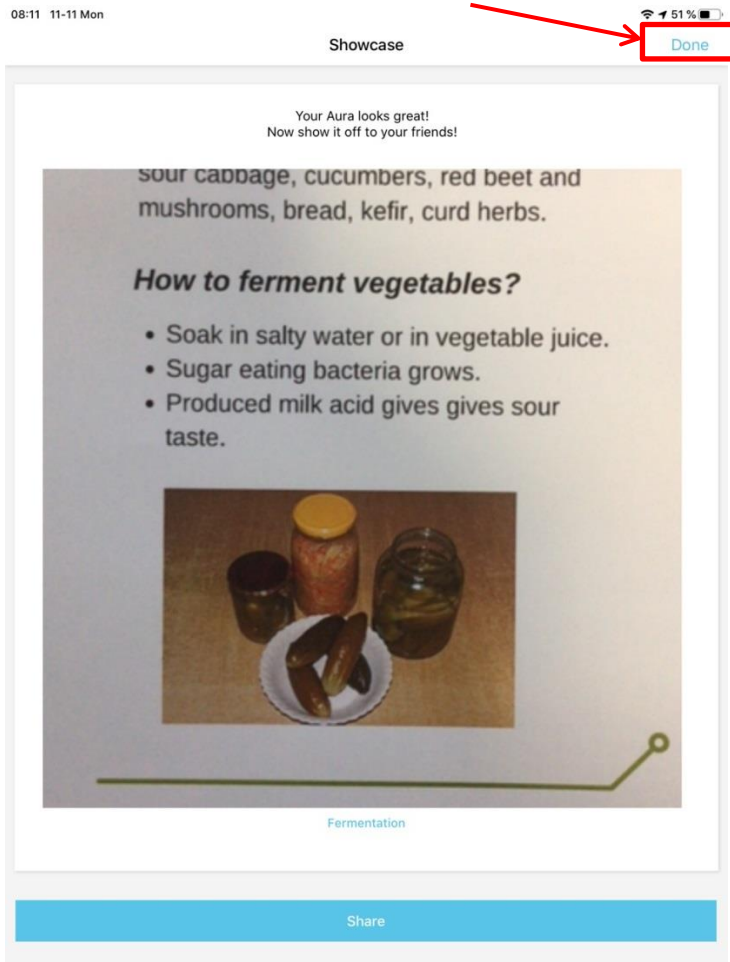

- “Position Overlay” lets you drag and size your video or image on your Trigger image. When it is done, just press **“Next”**.

- Next step is to select the channel for your Aura. You can choose “My Private Auras” or “Public Auras”. Press **“Submit”**, when the channel is chosen.

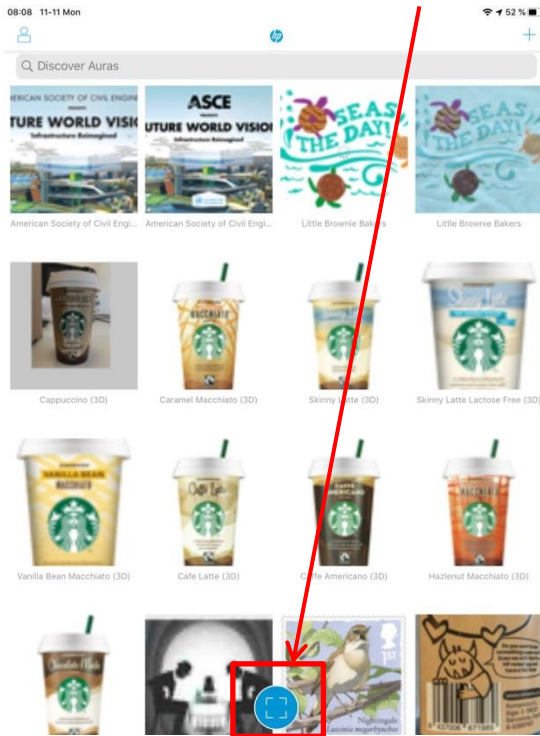

7. Press **“Done”** to finish creating your Aura.

How view an Aura?

1. Open the HP Reveal app.
2. Press the blue button at the bottom of the screen.

3. Bouncing dots will appear on your screen. Hold your device over the Trigger image until the Aura plays.
